M: Welcome to the Kingsville Zoo. How can I help you?

W: I need tickets for my family. I'm wondering how much they cost.

M: Well, an adult ticket is \$10.

W: Okay. How much is it for children? I'm here with my husband and daughter.

M: That depends. Tickets for kids under 13 are \$5.

W: Oh, my daughter is 7. But I heard you have a special family discount.

M: Yes, we do. Families with four or more members get 10% off.

W: Oh, I wish we had brought my son.

M: So would you like to buy the tickets for your family?

W: Yes, here's my credit card.

W: It looks like Harry's Store is closing.

M: I heard about that last week. They're closing at the end of this month.

W: You must be disappointed. You always enjoyed shopping for sporting goods there.

M: Yes, but I found a better store.

W: Really? I thought Harry's had everything you needed.

M: Yes, but their staff is not very helpful. I heard that's why they're closing.

W: They've been open for several years, though.

M: Yes, when they opened 10 years ago, the staff was better. But it got worse recently.

W: So, do you like the new store better?

M: Yes. Do you want to go there with me? I'm going next week.

W: Sure. I need a badminton racket, actually.

M: The carambola, more commonly known as the "star fruit," is native to South and Southeast Asia. When cut into slices, its shape resembles that of a star. It has green skin, but it turns yellow as it ripens. The entire fruit can be eaten without peeling it or removing its small seeds. Traditionally, unripe star fruit has been used as a remedy for skin problems. There are two basic types of star fruit: a smaller, sour type and a larger, sweet type. These days, due to its popularity, it is also grown in parts of the Americas.

W: Hey, why don't we go to Funland Park next week?

M: We've been there three times already this summer. I'm tired of it.

W: Yes, but they're having concerts next week. Rio Johnson is playing on Tuesday!

M: Don't you know I don't like her music?

W: Oh, right. But the rock band Steel Rain is playing on Monday.

M: Steel Rain! That's more like it. What time?

W: It's at 6 o'clock. Shall we go?

M: I wish I could, but I have a Spanish class every night at 7 o'clock.

W: Well, there's an afternoon show on Friday, but it's Rio Johnson. Steel Rain plays after her.

M: Oh! I just remembered that my teacher canceled class for that night.

W: All right, then. Let's go!

M: What's wrong, Kim? You look depressed.

W: It's just that learning Korean is so hard.

M: What do you mean? Didn't you tell me that you got an A on your last test?

W: Yes, but that was written Korean. My problem is understanding what people say.

M: Oh, I see. Have you tried watching Korean dramas?

W: No, I haven't.

M: It's a great way to improve your listening skills. That's what I did to practice Korean.

W: Really? And did your listening get better?

M: It sure did. And the shows were pretty interesting, too.

W: In that case, I'll take your advice.

W: You're watching the baseball game.

M: Yes. Why don't you sit down and join me?

W: Sure. I love baseball. *[Pause]* Oh, this is American baseball.

M: Yes, it's the Major Leagues. I'm a big Yankees fan.

W: I thought it was a Korean game. Personally, I'm a Lotte Giants fan.

M: Really? But you have to agree Major League games are more exciting.

W: What makes you think that?

M: There are many talented players in the Major Leagues.

W: Right, but Korean players are also talented.

M: Maybe, but there are Korean players in the Major Leagues, too.

W: I know. But I think Korean games are more enjoyable than Major League games.

M: Well, I suppose everyone has different tastes.

W: Elaine received a potted plant as a birthday gift from her best friend. She had never owned a plant before, so she decided to take good care of it. She watered it every day and always placed it near the sunniest window. Despite her effort, the plant began to wither. Elaine was so depressed that she showed her plant to Sam, a florist, to find out why it was dying. Sam inspected the plant carefully and found that Elaine had given the plant too much water. In this situation, what would Sam most likely say to Elaine?

Sam: You should water your plant less often.

M: You may find a baby's crying annoying and irritating. But crying is the only way that babies can express their needs, since they can't speak. To become a better parent, it is important to understand the different reasons why babies cry. First of all, crying usually means hunger. Therefore, feeding babies is often the best way to stop them from crying. However, when babies cry with their eyes closed, it means they are tired. In this case, they simply need to sleep. Sometimes, crying implies sickness. When babies cry with weak, moaning sounds, they should be taken to a doctor. Finally, if your baby cries for no clear reason, he or she is probably bored. By listening to your baby carefully, you'll soon become an expert at identifying the different kinds of crying.
